

Understanding the Consortium Concept...

What is the Continuing Education Unlimited Consortium? The CEU Consortium was formed with the idea that by providing a standard level of excellence in continuing education, Motivations, Inc. could offer group purchasing power to facilities and professionals to meet their needs. When we began in South Carolina in 2000, there were five members who decided to see what we had to offer. Now, we have close to 130 distinguished facilities that have chosen Motivations, Inc. as their preferred continuing education provider.

What's in it for me? By becoming a member of the CEU Consortium, you will find the most obvious benefits in your cost savings. With training budgets shrinking, and the level of healthcare education becoming more and more complex, the CEU Consortium provides fresh, quality education for rehab professionals at a significantly lower cost. Because we are able to bring our training course to your area or facility, you can save on travel expenses, staff coverage, and the set-up costs associated with most in house programs. By joining the Consortium, you are eligible to receive the highest level of rehab training available at a cost savings of more than \$500!

Are the classes approved for CEUs? Motivations, Inc. is an approved provider of continuing education by IACET (International Association for Continuing Education and Training). Beyond that, we are an approved provider of AOTA (American Occupational Therapy Association), ASHA (American Speech-Language and Hearing Association), NATABOC (National Athletic Trainers Association Board of Certification), and by the South Carolina Chapter of the APTA. We provide registered certificates at the completion of each course. If possible, each course is submitted to the Licensing Boards or Chapters of APTA in the state in which the course is held for pre-approval.

How do you earn the BEST RATE? Joining the CEU Consortium has never been easier or more affordable. By simply furnishing your account contact information, and with five or more registrations for any Motivations, Inc. course, you are automatically enrolled in our Consortium for one year from that date. Facilities as well as groups of professionals are welcome to form a membership group. There is no additional cost to you to join; your registration money is used only for your course tuition. No annual fees or renewal costs apply.

How do you record and report the balance in our consortium account? Quarterly financial reports are mailed to each member showing the detailed use of your funds and remaining balance or additional cost. You can eliminate the need for sending a single check per registration, and pay for many registrations at one time.

What is the cancellation policy? Consortium discounted rates are offered in consideration of the member's commitment to support course participation. Therefore, payments for pre-paid slots are non-refundable. However, tuition paid may be reassigned to other attendees or other courses.

Our staff is available and happy to assist you with any questions regarding membership. On-site presentations are available at your facility upon request. Let us know if we can help you!
